

Deck Comms Master Unit- 4 Channel

**Description:**

The 704 series is Clear-Com's most advanced party-line intercom system. Each station is a four-channel intercom with superior audio and versatile channel access to provide unmatched communication flexibility. All front-panel controls are intuitive and easy to operate. The station's front-panel buttons are programmable and can be customised for a wide variety of applications that will meet the demands of marine intercom systems. Separate volume controls for every channel ensure the perfect audio mix in the headset or on the integral speaker.

**Features:**

- Four Independent Intercom Channels for ultimate flexibility
- Microprocessor-Controlled Logic assures maximum communications power
- Universal Voltage Power Supply for 100 - 240 VAC operation, with short circuit protection on each channel
- "All-Talk" Function permits instant communications to all four channels
- "Announce" Button with Relay for external paging

**Specification:**

Input Voltage Range: 100 - 240 VAC  
 Input Frequency Range: 50 - 60 Hz  
 Input Power: <= 60 VAC  
 Output Voltage: 30 VDC ± 0.5V
