

**ID 07, Impact Drill/ Wrench**

**Description:**

The Stanley Underwater Hydraulic Impact Drill ID07 is two hydraulic underwater tools in one - an impact wrench and a wood drill. The ID07 has the commercial diving work-site proven swing-hammer mechanism that will deliver high performance and long-term service. The integral Stanley Hyrevz gear motor is manufactured to exacting standards to deliver maximum efficiency. The 1/2 inch square drive impact wrench delivers torque up to 500ft lbs and can tighten and loosen (and even break) nuts and bolts and drive lag screws underwater.

**Features:**

- Integral Stanley Hyrevz gear motor produces high torque
- Stainless Steel spools and fasteners
- Forward-reverse with variable speed
- 500ft lbs / 675Nm of impact

torque

- Oversized trigger for operator comfort
- Wiper seals on reversing and trigger spool
- Built-in reverse check valve ensures long seal life
- Plastisol handle for comfortable ergonomic grip
- Forward position of handle provides better balance
- Open center/closed center-dual spool feature
