

CH15, Chipping Hammer

Description:

The CH15 is a small and compact hydraulic Chipping Hammer used for light chipping and scaling underwater. The CH15 has a solid bit retainer and will accept .580 Hex shank, oval collar tool bits. The ergonomic "D" handle and short 17 inch overall length, makes it easy to use in confined and hard to access locations.

Features:

- Ergonomic "D" handle with inside trigger
- Stainless Steel spool and fasteners
- Tool body has rubber coating for diver comfort
- Floating trigger design requires minimal pressure
- Uses standard .580 Hex shank, oval collar tool bits

- High power to weight ratio
- Operates in any position
- CE Certified

Specifications:

Steel Capacity: .580 Hex Shank, Oval Collar Tool Bits
 Handle Type: "D" Handle, with Inside Trigger
 Circuit Type: Open Center Flow
 Range: 7-9gpm / 26-34lpm
 Optimum Flow: 8gpm / 30lpm
 Working Pressure: 1000 - 2000psi / 70-140bar
 Full Relief Setting: 2250psi / 155bar
 Weight (less tool bit): 16lbs / 7.25kg
 Length: 17" / 43cm
 Hydraulic Ports: -6 SAE O-ring
 Couplers: Yes
 Hose Whips: Yes (3/8" NPT Male thread)

Order Detail:
