

CS 06, Hydraulic Chain Saw

Description:

The CS06 is a hydraulic powered chain saw for cutting all types of wood structures underwater - including bridge pilings, pier and dock timbers. It's compact design and high torque gear motor provides divers instant chain speed to cut through the toughest timbers with ease. The power to weight ratio is significantly higher than any other wood cutting chain saw and is available with bar lengths up to 20 inch (51cm).

Features:

- Integral Stanley Hyrevz gear motor produces high torque
- Direct drive motor - no chain coast when trigger is released
- Stainless Steel spool and fasteners
- Interlocking safety trigger and hand guard
- Low kick back bar and chain - standard
- Open Center/Closed Center-Dual Spool Feature
- Large assist handle

- Adjustable chain oiler
- Bucking cleat
- Wide flow range

Specifications:

Cut Capacity: 15" / 20" (38cm / 51cm). See ordering information
 Chain Drive: Standard Floating Rim Sprocket & Wear Plates
 Chain Type: 0.325" Pitch
 Flow Range: 7-9gpm / 26-34lpm
 Optimum Flow: 8gpm / 30lpm
 Working Pressure: 1500 - 2000psi / 105-140bar
 Full Relief Setting: 2250psi / 155bar
 Motor Speed: 8gpm, 8540RPM
 Chain Speed: 8gpm, 3238ft/min, 16.45m/sec
 Weight (less bar/chain): 7.3lbs / 3.3kg
 Length (less bar/chain): 14" / 36cm
 Width: 9" / 23cm
 Hydraulic Ports: -8 SAE O-ring
 Connection Size and Type: 3/8" Male Pipe Adapter
 Couplers: Yes
 Hose Whips: Yes

Order Detail:

Chain Saw, Stanley Tool U/W, 15" Hosewhips (01652) & Coupler, CS 06	D-ST-160
