

6.5m SRP RIB – GRP – Gemini

Description:

The GEMINI Wave-rider 650 with its very sleek lines and ultra-modern hull shape has taken the boating market by storm. One of the 'newer' designed RIBS in the Wave-rider range, the WR 650 has quickly become a best seller. The WR 650 adheres to a wide variety of customer needs, is popular as a family leisure RIB, but also transforms quickly into a very capable workhorse. The Wave-Rider 650 is fitted with an IMCA compliant 2-diver scuba replacement package (SRP) that comprises a 2 diver panel, gas cylinders and diver umbilicals in one neat package. The frame of the SRP is engineered with two lifting dedicated lifting eyes situated on either end with dedicated, certified lifting strops. The SRP can be supplied in either the 3-cylinder or 4 cylinder configuration with an option of two 2-diver air control panels. The portable 1650PP diver air control panel features a 2-diver communications unit. The 1650PP panel can be substituted with a 1650PP V2 panel that allows surveillance monitoring of the diving operation. Our sales team can assist in identifying the best solution for your needs.
