REMOTE HANDLING SPECIALISTS

HLK-2150 Pan & Tilt:

The HLK-2150 Pan & Tilt is now considered to be one of the longest serving reliable units in service. Its unique slip ring and tilt action ensures the camera swept arc is kept to a minimum. Since serial number 360 a new adjustable camera tilt clamp system has been used to improve rigidity. A retro fit kit to upgrade all previous models is also available.

Specification:
